GLOBAL PRESENCE: Uniross is never far away from its consumers

MAKING A DIFFERENCE, ONE ENERGY SOLUTION AT A TIME!

Who we are?

Uniross is a B2B company that designs, manufactures and markets 'In-demand' portable energy solutions.

Our innovative products and custom solutions make portable power more reliable, energy efficient and sustainable. With over 5 decades of domain expertise, our branded products and custom solutions have helped small, medium and large businesses across the world to gain a competitive advantage and capture larger market share.

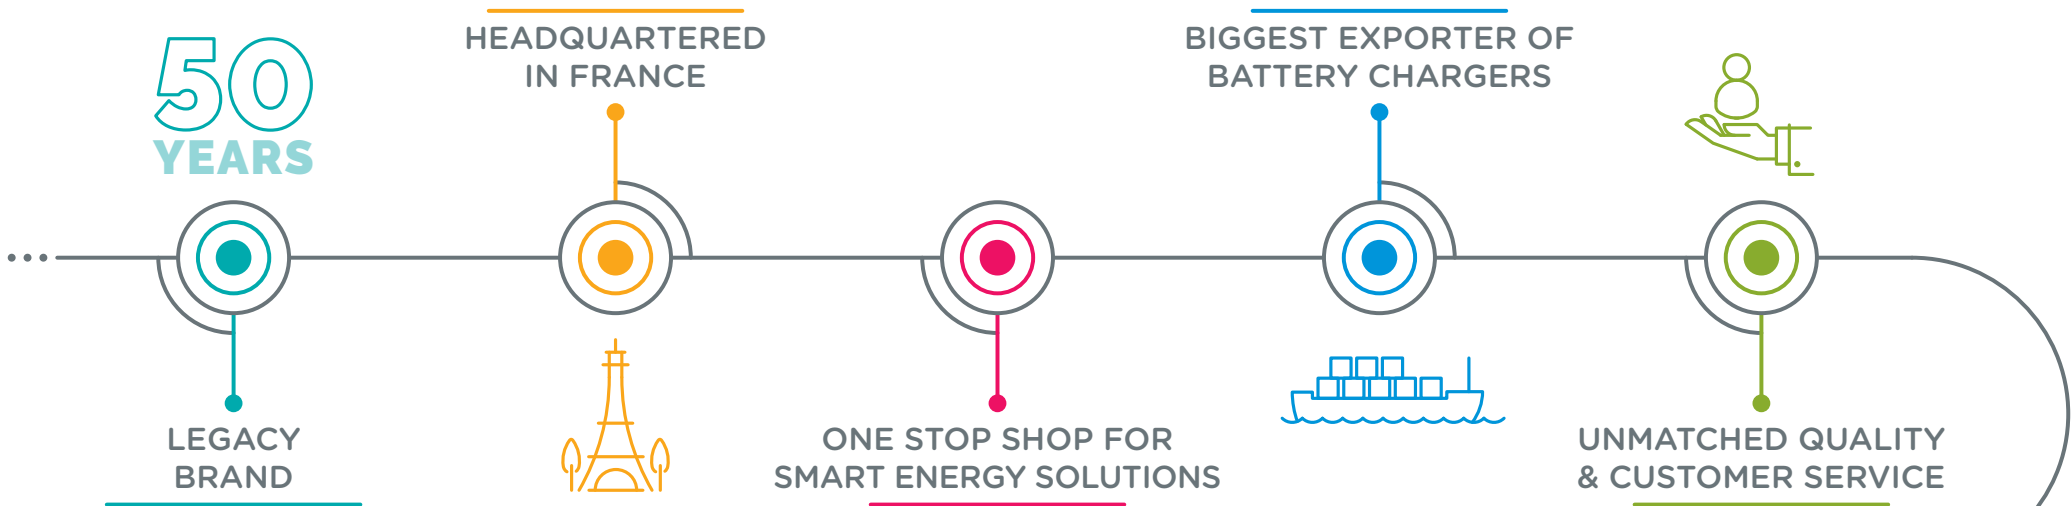

A global brand

We are a household brand synonymous with high quality, efficiency and reliability. From our humble beginnings in the United Kingdom, our brand is now headquartered in France with branches serving global partners in over 70+ countries. We have shipped over 150 million products which have been interacting with consumers via 50000+ retail and online channels. This impeccable brand reputation has helped our partners to seamlessly expand business footprint and capture greater market share in key regions.

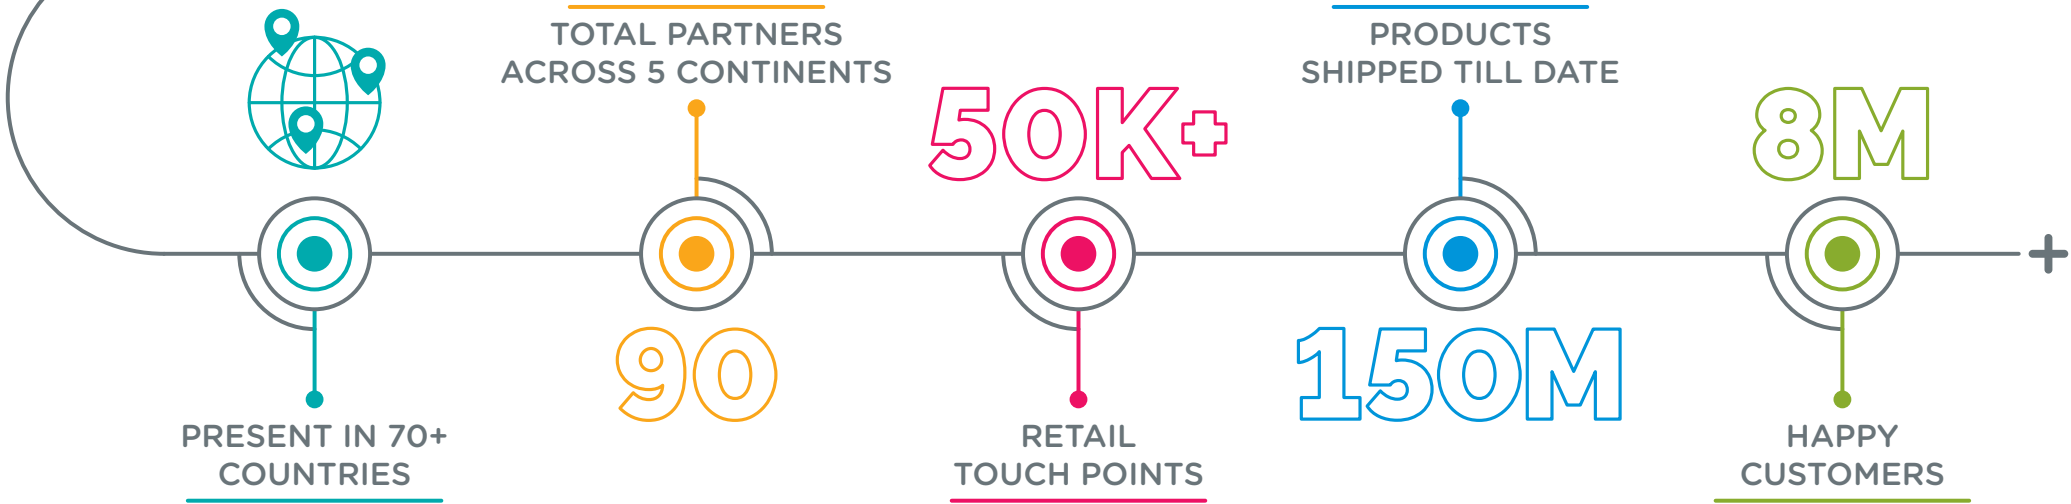

Building new age products and solutions

At Uniross we continuously strive to keep in pace with the changing demands and expectations of the new age consumer. Our R&D team is committed in developing and improving technologies and products through effective nurturing of consumer insights and using best in class prototyping and manufacturing techniques.

CORE ASPECTS OF OUR OPERATION

Quality

We ensure highest product quality through multiple certifications and audits. Stringent internal quality processes which allows us to carefully choose our suppliers for an overall high grade output.

Trust

We have a strong belief and confidence not only in our team members but also in our external partners which has fostered long term relationships and help excel in our work.

Continual Improvement

As we continue to move forward, we will continue to improve on the different ways in which we reduce carbon emissions and impact the environment.

Ethical Purchase

All of our materials are carefully sourced from trusted suppliers and ensure minimum environment impact. Our well defined purchasing procedures and policies ensure our products are manufactured with minimal harm to animals, environment and humans

Reducing Carbon Footprints

We particularly pride ourselves in providing the most efficient smart energy solutions and exercising advisory for controlling direct / indirect emissions and use of clean materials. Through our communications we also encourage everyone to think about their lifestyle decisions and find opportunities to reduce their climate impact.

Environment Responsibility

At Uniross we work with highest integrity and compliance while reducing the impact of our technologies on the environment . Our products are rigorously tested and verified to meet the highest standards of norms for various countries. We are dedicated to not only preserving the world we live in, but making it a better place for future generations.

Recycled Packaging

Every piece of packaging Uniross uses is made out of recycled material. We make sure that nothing goes to waste during our production process.

A Joint Responsibility

It is everyone's responsibility to do their part in protecting the environment. At Uniross, we play a major role in providing smart energy solutions to our customers, which helps reduce their carbon footprint when using our rechargeable products.

Client Value creation

Our continuous endeavor is keep improving our processes , products and solutions to offer a better value to our customers. We also believe in knowledge sharing that is beneficial for mutual growth and prosperity.

Uniross

PRIMARY BATTERIES

Uniross Alkaline batteries are the compact powerhouses designed to keep new age devices like wireless mouse, remote controllers & battery-operated toys running for a very long time. Their precise chemical configuration ensures consistent power out and high device performance. Available in an elaborate 5 range varieties with all configuration types (AA, AAA, C, D,9V).

POWER PLUS

Tough built, leak proof batteries

MAX POWER

Long lasting high yield batteries

HEAVY DUTY

Reliable Power with affordable value

LITHIUM

High density low self-discharge, daily use batteries

UNIROSS BATTERIES ARE THOROUGHLY TESTED UNDER VARYING CONDITIONS SIMULATING THE REAL DEVICE USAGE ENVIRONMENT AND DELIVERS EXCELLENT RESULTS PROVIDING A STEADY AND CONSISTENT POWER.

HOLISTIC PRODUCT RANGE

Available in AA,AAA,C,D & 9V format.

SAFE UNDER EXTREME WAREHOUSE CONDITIONS

High storage temperature handling capability of up to 45°C

100% CADMIUM, MERCURY & LEAD FREE

Guaranteed free from any harmful metals

EASY TO IDENTIFY PRODUCTS

Unique color differentiation makes the batteries easy to identify

EXCELLENT SHELF LIFE

Battery remains fresh to use for up to 7 years*

* performance varies for different battery types

ASSORTED PACKAGING

Available in convenient packaging variations

uniross

RECHARGEABLE BATTERIES

Uniross's rechargeable battery series consists of an assorted ensemble of state of the art batteries made using the most modern manufacturing and testing techniques that provide a consistent performance for years. They also consume less energy and cost than manufacturing regular batteries and produce significantly less battery waste caused by discarding single use batteries. They come equipped with advanced features like low self discharge and steady voltage characteristics making them highly reliable and suitable for high & low drain devices.

THREE HIGH PERFORMANCE RECHARGEABLE BATTERIES

HYBRIO

For high drain devices

LITHIUM

For high drain devices

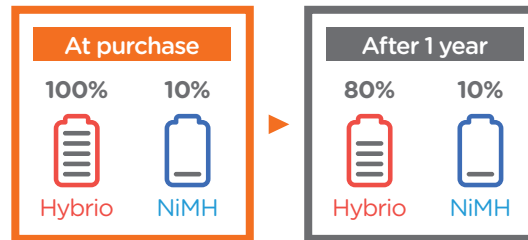

NiMH

For photographers & professionals

TESTED, VERIFIED & CERTIFIED

With stringent internal quality parameters, Uniross batteries are tested thoroughly for vibration resistance, external short circuit, drop test and high temperature compatibility

LONG SHELF LIFE WITH NO LOSS IN ACTIVE CAPACITY

With its superior technology that allows very low self-discharge, Hybrid batteries are able to maintain 80% of its capacity even after 1 year of purchase.

SUPERIOR PERFORMANCE IN HIGH & LOW DRAIN DEVICES

Uniross rechargeable batteries perform better than their Alkaline counterparts by giving a steady voltage output for 80% of their discharge cycle.

Ni-MH

High capacity High performance battery for professional photography

CONSISTENT POWER OUTPUT

Uniross NiMH battery provides a uniform stream of power output throughout its working cycle and even just before its complete depletion. This gives a consistent flash performance during crucial shoots.

IMPROVED REFRESH RATE

Its superior performance output enables a faster refresh rate thereby keeping the flash ready at all times. This helps to take photos more quickly than those taken using conventional batteries.

LONGER SHOOT CYCLES

The high capacity ensures long hours of power output to camera devices allowing to continuously shoot photos for a long period of time before the need to replace the batteries.

SPECIALTY BATTERIES

Specialty applications like medical products, emergency equipments & high performance devices undergo continuous innovation and have become more compact with times. These devices need compact, high power and long-lasting batteries to power them while providing an optimal device performance for a sustained period of time. Uniross specialty batteries covers the whole spectrum of batteries for such specialty applications which are manufactured using advanced machines and go through strict testing procedures to give high quality batteries with consistent output.

UNIROSS RANGE OF SPECIALTY BATTERIES ARE AVAILABLE IN 3 CATEGORIES

PHOTO LITHIUM

For high performance devices

ALKALINE MICRO

For slim / compact devices

ZINC AIR

For hearing aid devices

WIDE RANGE

ALKALINE MICRO

Slim Alkaline batteries for low power smart devices

Optimum performance in compact size

Powered by Alkaline technology these batteries pack a healthy charge in slim proportions and provide sufficient power for a long lasting device performance.

Tested, verified & certified

With stringent internal quality parameters, Uniross batteries are tested thoroughly for no leakage, vibration resistance and extreme temperature compatibility.

HEARING AID

Dependable & long lasting power source for Hearing aid products

More power per battery

Advanced Zinc Air technology enables these batteries to pack more power in a slimmer footprint that meets all high energy requirements of modern wireless hearing aids.

Safe and reliable

Batteries use high grade stainless steel with anti-corrosion properties making these batteries extremely safe to use.

BATTERY CHARGERS

Battery chargers are an essential companion to rechargeable batteries ensuring a quick recharge and keeping them operational at all times. Chargers are environment friendly and cost effective as they use less energy and cost than manufacturing a new battery and produce significantly reduce battery waste caused by discarding single use batteries.

PROFESSIONAL CHARGERS

Uniross offers a convenient assortment of battery chargers equipped with advanced features like quick charge technology, sound indication and wrong polarity detection making them an ideal choice for professionals and consumers alike. These chargers have been designed to fit most battery sizes and varieties and come in convenient packaging options.

Biggest range of chargers

User friendly

Charges, tests, and revives batteries

Works with universal voltage configurations

ONE CHARGER FOR MULTIPLE BATTERY CONFIGURATIONS, ANYWHERE

Smart technologies and class-leading features implemented in our Professional range of chargers allows you to use them with a wide variety of 1.2 V Ni-MH, 3.2 V LiFePO₄, 3.7/3.85 V Li-Ion batteries. LCD Pro 3T and Compact 3T chargers are also capable of accepting universal voltage via a wide range of electrical outlets (EU, US, UK, and AU), as well as 12 V DC input for on-the-go charging, and, thanks to their compact dimensions, easy to carry and store.

Charges Li-Ion, LiFe-PO₄, and Ni-MH

High grade, shockproof, and fireproof PVC material

Sleek design with secure fit battery mechanism

packaging variations

Smart LCD Pro 3T UCX005

An intelligent charger to quickly power any device battery

An intelligent charger ideal for families and professionals that quickly powers any device battery. This charger caters to varying battery geometries used in different devices. Its intelligent design not only docks the battery securely but also provides uniform charging to all batteries. Designed and engineered using high grade, shockproof and fireproof PVC material coupled with an intuitive LCD display, results in a consistent high performance for years. It also facilitates complete discharging of a battery when needed.

1.2V Ni-MH

3.2V LiFePO₄

3.7/3.85V Li-Ion

-  AC/DC charging input
-  Latest gen electronic circuits for quick and precise charging
-  Large, high-contrast LCD screen with real time charging info
-  Reverse polarity detection with auto switch-off mechanism
-  Snug-fit clamps for secure battery fit
-  Auto battery activation revives depleted batteries

Compatible batteries: Li-Ion/LiFePO₄: 10440, 14500, 14650, 16340 (R-CR123), 17500, 17670, 18350, 14430, 18650, 22650, 26500, 26650; **Ni-MH/Ni-Cd:** AA, AAA, C, D, SC

packaging variations

Smart Compact 3T LCD UCX004

Ultra compact go-to device for optimal charging performance

Equipped with 2 highly efficient docking ports capable of accommodating a multitude of battery sizes and capacities.

1.2V NiCd/Ni-MH

3.2V LiFePO₄

3.7/3.85V Li-Ion

-  Car Charger and Micro USB input
-  High-contrast LCD screen with real time charging info
-  Reverse polarity detection with auto switch-off mechanism
-  Snug-fit clamps for secure battery fit

Compatible batteries: Li-Ion/LiFePO₄: 10440, 14500, 14650, 16340 (R-CR123), 17500, 17670, 18350, 18500, 18650, 20700, 21700, 22650, 25500, 26500, 26650, 32650, 33600; **Ni-MH/Ni-Cd:** AA, AAA, AAAA, 2/3AA, C, D, SC

packaging
variations

Smart Compact 3T LED UCX006

An intelligent charger to quickly power any device battery

This charger caters to varying battery geometries used in different devices. Its intelligent design not only docks the battery securely but also provides uniform charging to all batteries.

1.2V NiCd/Ni-MH

3.7/3.85V Li-Ion

-  Car Charger and Micro USB input
-  Bright blue LED Indicator
-  Reverse polarity detection with auto switch-off mechanism
-  Snug-fit clamps for secure battery fit

Compatible batteries: **Li-Ion:** 10440, 14500, 14650, 17500, 17670, 18350, 14430, 18650, 22650, 26500, 26650; **Ni-MH/Ni-Cd:** AA, AAA, C, D, SC

packaging
variations

Smart Mini 3T UCX003

Mini yet powerful, Uber portable charger

Fully capable of handling most popular battery sizes with an unique built in functionality of a Powerbank

1.2V NiCd/Ni-MH

3.2V LiFePO₄

3.7/3.85V Li-Ion

-  Bright blue LED Indicator
-  Snug-fit clamps for secure battery fit
-  High grade, shockproof & fireproof PVC material
-  Compatible with most vape batteries

Compatible batteries: **Li-Ion/LiFePO₄:** 10440, 14500, 14650, 17500, 17670, 18350, 18500, 18650, 20700, 21700, 22650, 25500, 26500, 26650, 32650, 33600; **Ni-MH/Ni-Cd:** AA, AAA, AAAA, 2/3AA, C, D, SC

NIMH CHARGERS

Uniross introduces high performance, light weight NiMH battery chargers equipped with advanced electronic circuits ensuring rapid & safe charging for household and professional use batteries. These chargers provide audio and visual alerts along with a host of safety features to provide an optimum charging performance.

LIGHTING
SOLUTIONS

SUPERBRIGHT, CONVENIENT & EFFICIENT

High quality LED Products from Uniross lighting for a wide range of applications

OUR LED TECHNOLOGY

All our LED products carry superior LED modules that are made using state of the art manufacturing techniques which gives a max lumen performance with up to 80% energy savings. Each LED product complies with the highest standards of safety and reliability parameters at the same time making them safe for human eyes.

PERFECT LIGHT QUALITY

Our LED products are undergo precise calibrations and make use of advanced optics to ensure a smooth and even light quality. All LEDs used in our products have an excellent color rendering index that achieves homogeneity between the bulb and the application.

WIDE RANGE

Our wide range of outdoor LED products consists of robust built, lightweight, long lasting range of torches, area lights, lanterns and flashlights that are suitable for numerous outdoor applications.

FLASHLIGHT

Superbright Torchlight

ULFL010

This high intensity, light-weight torchlight comes with an telescopic dimming mechanism that helps you to adjust the beam intensity. Its powerful beam illuminates targets even in low visibility conditions like fog or smoke.
